Career Objective

Aspiring software engineer with knowledge in C, Python, and a passion for AI and deep learning. Recognized for empathy, active listening, and teamwork. Seeking an opportunity to gain real-world experience and contribute to impact full, forward-thinking technology solutions.

Education

- **SCMS School of Engineering and Technology, Ernakulam.**
Btech Computer Science Engineering.
80.6% till semester 5.
- **Sree Sarada Vidyalaya, Kalady.**
Plus two .
87%.

Skills

Technical

- C
- Python
- SQL
- Java

Soft Skills

- Discipline
- Empathetic
- Team player
- Adaptability

Experience

Internship

- **Machine Learning and Artificial Intelligence - ICT Academy.**
Oct 14, 2024 – Nov 18, 2024.
Collaborated on AI-based tasks during hands-on training sessions.
Gained foundational knowledge of AI tools and real-world applications.

Projects

- **OTT Revenue Prediction**
Built a deep learning model to forecast movie revenue on OTT platforms by leveraging data from multiple sources. Integrated SHAP and LIME for explainable AI insights, enabling data-driven decisions and transparent performance evaluation.
- **Alzheimer's Assistance System (In Progress)**
Creating a smart glasses-based system to support Alzheimer's patients with real-time reminders, facial recognition, and navigation assistance, enhancing independence through wearable AI.

Certifications

- PACE LAB Internet of Things
- NPTEL introduction to psychology
- ICT academy Machine Learning and Artificial Intelligence

Extracurricular/Hobbies

- Video Editing
- Dancing
- Singing
- Photography
